The financial statement have been prepared and presented under the historical cost convention using the accrual basis of accounting and comply with all the mandatory Accounting Standards issued by Institute of Chartered Accountant of India (ICAI) and the relevant provision of the LLP Act, 2008.

b) Use of Significant Judgements, Estimates and Assumptions

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

c) Current & Non-Current Classification

All the assets and liabilities have been classified as current or non-current as per the normal operating cycle. Based on the nature of activities and time between the activities performed and their subsequent realisation in cash or cash equivalents, normal operating cycle has been taken as 12 months for the purpose of current / non-current classification of assets and liabilities.

d) Cash And Cash Equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

e) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities are segregated based on the available information.

f) Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments.

ii) Deferred Taxation

Deferred tax is recognised as per Accounting Standard 22 Taxes on income on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences.

Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

Net outstanding balance in Deferred Tax account is recognised as deferred tax liability/asset.
