## DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2020

The directors have pleasure in submitting the financial statements of Adani Global FZE (the "Establishment"), Jebel Ali, Dubai for the year ended 31 March 2020.

### Turnover, profit and dividend

The turnover of the Establishment for the year ended 31 March 2020, amounted to AED 6,327,137,022 as compared to AED 7,203,983,784 in the previous year. The directors are confident of achieving further growth, both in revenue and profitability in the coming years.

The profit for the year amounted to AED 43,794,966. An amount of AED 182,766 has been paid as dividends for the year ended 31 March 2020.

### Business activity

The Establishment's principal activity during the year was trading in coal, metal scrap and metal waste products.

### Events during the year

During the last quarter of the year, there was an outbreak of COVID-19 (Coronavirus) across the globe, causing disruptions to economic activity and business operations. The management expects that such disruptions to be temporary and currently believes that it has adequate business plans to continue with the operations and mitigate the risks, if any associated with COVID-19 outbreak. Management will continue to monitor the situation in order to assess potential financial impact, if any.

### Events after the reporting date

There were no major events occurred after the reporting date which materially affect the financial statements for the year ended 31 March 2020.

### Directors

During the year, vide Board resolutions passed by the Shareholder, two additional directors are appointed by the Establishment. The directors of the Establishment as at 31 March 2020 were as follows:

Name	Nationality
Mr. Rakesh Shantilal Shah	Indian
Mr. Pranav Sevanti Vora	American
Mr. Vishwas Shah	Indian
Mr. Hemant Nerurkar	Indian

### Independent auditor

PKF, Chartered Accountants, Dubai were appointed as independent auditor of the Establishment for the year ended 31 March 2020. A resolution to re-appoint them for the year ending 31 March 2021 will be proposed at the forthcoming annual general meeting.

For and on behalf of the board of directors of  
**ADANI GLOBAL FZE**

  
**PRANAV SEVANTI VORA**  
**DIRECTOR**  
30 April 2020

## INDEPENDENT AUDITOR'S REPORT

To the Shareholder of **ADANI GLOBAL FZE**

### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the financial statements of **ADANI GLOBAL FZE** (the "Establishment"), which comprise the statement of financial position as at 31 March 2020, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Establishment as at 31 March 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Establishment in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the UAE, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of matter**

We draw attention to Note 2 (a) to the financial statements which states that these financial statements are the separate financial statements of **ADANI GLOBAL FZE**. The consolidated financial statements of **ADANI GLOBAL FZE** and its subsidiary, which are required to be presented in accordance with International Financial Reporting Standard 10: Consolidated Financial Statements, are presented separately. Our opinion is not modified in this respect.

#### **Other Information**

Management is responsible for the other information. Other information comprises the Directors' report, which we obtained prior to the date of this auditor's report. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we concluded that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard

continued...

## INDEPENDENT AUDITOR'S REPORT

(continued)

### ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs, and for their compliance with the applicable provisions of the Jebel Ali Free Zone Companies Implementing Regulations 2016, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Establishment's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Establishment or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Establishment's financial reporting process.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Establishment's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

continued...

## **INDEPENDENT AUDITOR'S REPORT**

(continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Establishment's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Establishment to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Report on Other Legal and Regulatory Requirements**

We confirm that the financial statements comply with Jebel Ali Free Zone Companies Implementing Regulations 2016. Also, in our opinion, proper books of account and other records have been maintained in accordance with the said regulation.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

### 1. LEGAL STATUS AND BUSINESS ACTIVITY

- a) **ADANI GLOBAL FZE** (the “Establishment”) with license No. 1947 is registered as a Free Zone Establishment in Jebel Ali Free Zone, United Arab Emirates. The Establishment was incorporated on 22 November 1997 with limited liability pursuant to Law No. 9 of 1992 and the Implementing Regulations No. 1/92 (repealed by Jebel Ali Free Zone Companies Implementing Regulations 2016) issued by Jebel Ali Free Zone Authority. The registered address is P. O. Box 17186, Dubai, UAE.
- b) The Establishment is a wholly owned subsidiary of Adani Global Limited (the “parent company”), a private company incorporated in Mauritius. Adani Enterprises Limited, India, a public limited company is the “ultimate parent company”.
- c) The Establishment principally traded in coal, metal scrap and metal finished products during the year.

### 2. BASIS OF PREPARATION

#### a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards issued or adopted by the International Accounting Standards Board (IASB) and which are effective for accounting periods beginning 1 January 2019, and the requirements of Jebel Ali Free Zone Companies Implementing Regulations 2016.

These financial statements are the separate financial statements of the Establishment presented only for the purpose of reporting to the shareholder. The consolidated financial statements of the Establishment and its subsidiary, which are required to be presented in accordance with International Financial Reporting Standard 10: Consolidated Financial Statements, are presented separately.

#### b) Basis of measurement

The financial statements are prepared using historical cost. Historical cost is based on the fair value of the consideration given to acquire the asset or cash or cash equivalents expected to be paid to satisfy the liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

#### c) Going concern

The financial statements are prepared on a going concern basis.

When preparing the financial statements, management makes an assessment of the Establishment’s ability to continue as a going concern. Financial statements are prepared on a going concern basis unless management either intends to liquidate the Establishment or to cease operations, or has no realistic alternative but to do so.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

The future impact on the Establishment's business performance on account of COVID-19 outbreak has been considered as part of management's assessment of the Establishment's ability to continue as a going concern. The management does not see any medium to long term risks in the Establishment's ability to continue as a going concern. The management currently believes that it has adequate liquidity to settle its liabilities as and when they fall due, and ensure compliance with the debt covenants, as applicable and has business plans to continue with the operations and mitigate the risks, if any associated with COVID-19 (refer Note 32).

d) **Adoption of new International Financial Reporting Standards**

*Standards, amendments, improvements and interpretations effective for the current period*

The International Financial Reporting Standard, amendments, improvements and interpretation that became effective for the current reporting period are as follows:

- IFRS 16: Leases
- Amendments to IFRS 9: Prepayment Features with Negative Compensation and Modification of financial liabilities
- Amendments to IAS 28: Investment in Associates and Joint Ventures relating to long-term interests in associates and joint ventures
- Annual Improvements 2015-2017 Cycle:
  - IFRS 3 Business Combinations
  - IFRS 11 Joint Arrangements
  - IAS 12 Income Taxes
  - IAS 23 Borrowing Costs
- Amendments to IAS 19: Employee Benefits Plan Amendment, Curtailment or Settlement
- IFRIC 23: Uncertainty over Income Tax Treatments

The impact of adoption of the above standard, amendments, improvements and interpretation and the new accounting policies are explained below in more detail:

**IFRS 16: Leases**

**Impact of adoption**

IFRS 16 was issued in January 2016 and is effective for annual periods beginning on or after 1 January 2019, which supersedes the previous guidance in IAS 17 leases, IFRIC 4 Determining whether an arrangement contains a Lease, SIC-15 Operating Leases – Initiatives and SIC-27 evaluating the substance of transactions involving the legal form of a lease. The standard requires lessees to account for most leases under a single on-balance sheet model and sets out the principles for the recognition, measurement, presentation and disclosure of leases. Lessor accounting remains similar to previous accounting policies. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Establishment is the lessor.

Adoption of IFRS 16 did not have any significant impact on the Establishment's financial statements.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

### **IFRS 16 accounting policies**

The application of the new standard required the management to apply the new accounting policy, which is summarised in note 3 (I) to the financial statements under significant accounting policies.

### **Other amendments, improvements and interpretation**

The following amendments, improvements and interpretation which became effective 1 January 2019, did not have any significant impact on the Company's financial statements:

- Amendments to IFRS 9: Prepayment Features with Negative Compensation and Modification of financial liabilities
- Amendments to IAS 28: Investment in Associates and Joint Ventures relating to long-term interests in associates and joint ventures
- Annual Improvements 2015-2017 Cycle:
  - IFRS 3 Business Combinations
  - IFRS 11 Joint Arrangements
  - IAS 12 Income Taxes
  - IAS 23 Borrowing Costs
- Amendments to IAS 19: Employee Benefits Plan Amendment, Curtailment or Settlement
- IFRIC 23: Uncertainty over Income Tax Treatments

### ***New and revised IFRSs in issue but not yet effective***

The following amendments and improvements that are assessed by management as likely to have an impact on the financial statements, have been issued by the IASB prior to the date the financial statements were authorised for issue, but have not been applied in these financial statements as their effective dates of adoption are for future accounting periods.

- Amendments to IAS 1 and IAS 8: Definition of Material (1 January 2020)
- The Conceptual Framework for Financial Reporting (1 January 2020)

### **e) Functional and presentation currency**

The Establishment's functional currency is US Dollar based on the fact that a significant portion of its sales and purchases are denominated and settled in that currency. However, the financial statements are presented in UAE Dirhams ("AED") which is the currency of the country of domicile of the Establishment and the amounts presented are rounded to the nearest thousand, unless otherwise stated.

### **3. SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies adopted, and which have been consistently applied, are as follows:

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

a) **Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost less estimated residual value, where material, is depreciated from the date the asset is available for use until it is derecognised, using the straight-line method over the estimated useful lives of the assets as follows:

Residential apartments	6 – 7 years
Furniture, fixtures and office equipment	5 years
Vehicles	3 years

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate only when it is probable that future economic benefits associated with the expenditure will flow to the Establishment and such cost can be measured reliably. Such cost includes the cost of replacing part of the property, plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the Establishment recognises such parts as individual assets with specific useful lives and depreciates them accordingly. The carrying amount of replaced parts is derecognised.

All other repairs and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

An assessment of depreciation method, useful lives and residual values is undertaken at each reporting date and, where material, if there is a change in estimate, an appropriate adjustment is made to the depreciation charge.

Gains on disposals are determined by comparing proceeds with the carrying amount. These are recognised within 'other operating income/expenses' in profit or loss.

b) **Investment property**

Residential apartments acquired for the purpose of earning rental income and/ or capital appreciation are classified as investment property and are stated at cost less accumulated depreciation and impairment losses. The cost less estimated residual value, where material, is depreciated using the straight-line method over the expected useful lives of the properties of 6 - 7 years.

An assessment of depreciation method, useful lives and residual values is undertaken at each reporting date and, where material, if there is a change in estimate, an appropriate adjustment is made to the depreciation charge.

c) **Investment in subsidiaries**

Subsidiaries are entities over which the Establishment exercises control. Control is achieved when the Establishment is exposed, or has rights, to variable return from its involvement with the investee and has the ability to affect those returns through its power over the investee.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

The investment in subsidiaries is accounted at cost less impairment losses, if any. Consolidated financial statements of the parent and its subsidiary are prepared separately.

d) **Inventories**

Inventories are stated at the lower of cost and net realizable value. Cost is arrived at using the Weighted Average Cost (WAC) method and comprises invoice value plus applicable landing charges less discounts. Net realisable value is based on estimated selling price less any estimated cost of disposal.

e) **Staff end-of-service benefits**

Provision is made for end-of-service benefits payable to non-UAE national employees at the reporting date in accordance with the local labour laws.

f) **Revenue recognition**

The Establishment is in the business of trading in coal, metal scrap and metal finished products.

Revenue from contracts with customers is recognised when the control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Establishment expects to be entitled in exchange for those goods or services.

The Establishment recognises revenue from contracts with customers based on a five-step model as set out in IFRS 15:

1. Identify the contracts with customers: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
3. Determine the transaction price: The transaction price is the amount of consideration to which the Establishment expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Establishment will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Establishment expects to be entitled in exchange for satisfying each performance obligation.
5. Recognise revenue when (or as) the Establishment satisfies a performance obligation at a point in time or over time.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

The Establishment satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Establishment's performance as the Establishment performs; or
- The Establishment's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Establishment's performance does not create an asset with an alternative use to the Establishment and the Establishment has an enforceable right to payment for performance completed to date.

The Establishment is required to assess each of its contracts with customers to determine whether performance obligations are satisfied over time or at a point in time in order to determine the appropriate method of recognising revenue.

### ***Sale of goods***

The sales are high sea sales, i.e. the supplier ships goods directly to the customers. The Establishment has concluded that revenue from sale of goods should be recognised at a point in time when the control of the asset is transferred to the customer, generally on delivery of the goods.

### **g) *Rental income***

Rent received from renting of properties during the year is based on contractual agreements and is accounted on accrual basis. Rent received in advance for future periods is carried forward and included in current liabilities.

### **h) *Interest income***

Interest income is recognised as the interest accrues using the effective interest method, under which the rate used exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

### **i) *Leases***

#### ***Short-term leases***

The Establishment applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

### **j) *Cash and cash equivalents***

Cash and cash equivalents comprise cash, bank current accounts and bank call deposit accounts free of encumbrance.

### **k) *Other financial assets***

Other financial assets measured at amortised cost comprise fixed term deposits and margin deposits under encumbrance and/or with a maturity date of more than three months from the date of deposit.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

l) **Foreign currency transactions**

Transactions in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling on the date of the transactions.

Monetary assets and liabilities expressed in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling at the reporting date.

Gains or losses resulting from foreign currency transactions are taken to profit or loss.

m) **Borrowing costs**

Borrowing costs are recognised as an expense in the period in which they are incurred except those that are attributable to the acquisition and construction of an asset that necessarily takes a substantial period to get ready for its intended use ("qualifying asset"). Such borrowing costs are capitalised as part of the related qualifying asset up to the date the qualifying asset is ready for use.

n) **Provisions**

A provision is recognised when the Establishment has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

o) **Value added tax**

As per the Federal Decree-Law No. (08) of 2017, effective from January 1, 2018, Value Added Tax (VAT), is charged at 5% standard rate or 0% (as the case may be) on every taxable supply and deemed supply made by the taxable person. The Company is required to file its VAT returns and compute the payable tax (which is output tax less input tax) for the allotted tax periods and deposit the same within the prescribed due dates of filing VAT return and tax payment.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

p) **Current versus non-current classification**

The Establishment presents assets and liabilities in the statement of financial position based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Establishment classifies all other liabilities as non-current.

q) **Financial instruments**

**Classification**

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income ("FVTOCI") – debt investment; FVTOCI – equity investment; or fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial assets' contractual cash flow characteristics and the Company's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or FVTOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrumental level.

The Establishment's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cashflows, selling the financial assets, or both.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

Financial liabilities are classified as financial liabilities at FVTPL or at amortised cost. The Establishment determines the classification of its financial liabilities at initial recognition.

### **Recognition**

Financial assets and financial liabilities are recognised when, and only when, the Establishment becomes a party to the contractual provisions of the instrument. Regular purchases and sales of financial assets are recognised on trade-date, the date on which the Establishment commits to purchase or sell the asset.

### **Derecognition**

Financial assets are de-recognised when, and only when,

- The contractual rights to receive cash flows expire or
- The Establishment has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
  - (a) the Establishment has transferred substantially all the risks and rewards of the asset, or
  - (b) the Establishment has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities are de-recognised when, and only when, they are extinguished i.e. when obligation specified in the contract is discharged, cancelled or expired.

### **Measurement**

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition. Transactions costs of financial assets carried at FVTPL are expensed in profit or loss.

All financial assets not classified as measured at amortised cost or FVTOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Establishment may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

The following accounting policies apply to the subsequent measurement of financial assets and liabilities.

### **Financial assets at amortised cost**

Financial assets that meet the following conditions are subsequently measured at amortised cost less impairment loss and deferred income, if any (except for those assets that are designated as at fair value through other comprehensive income on initial recognition) using the effective interest method. All other financial assets are subsequently measured at fair value.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

1. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
2. the contractual terms of the instrument give rise to cash flows on specified dates that are solely payments of principal and profit on the principal amount outstanding.

Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

The financial assets at amortised cost comprise of trade and other receivables, due from related parties, other financial assets and cash and cash equivalents.

### *Financial liabilities*

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at amortised cost comprise of current borrowings, trade and other payables and due to related parties.

Financial liabilities at FVTPL consists of derivative financial liabilities.

Financial liabilities at FVTPL are stated at fair value with any gains or losses arising on changes in fair value recognised in profit or loss to the extent that they are not part of a designated hedging relationship. However, for financial liabilities that are designated at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effect of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss.

### ***Impairment of financial assets***

The Establishment recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Establishment expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Loss allowances are measured on either of the following basis:

- 12-month ECLs: ECLs that result from possible default events within 12 months after the reporting date; and
- Lifetime ECLs: ECLs that result from all possible default events over the expected life of a financial instrument.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

The Establishment measures the loss allowance at an amount equal to lifetime ECLs, except for the following which are measured as 12-month ECLs:

- Bank balances, due from related parties and other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Establishment has elected to measure loss allowances for trade receivables at an amount equal to lifetime ECLs. The Establishment applies a simplified approach in calculating expected credit losses. The Establishment does not track changes in credit risk, but instead recognised a loss allowance based on lifetime expected credit losses at each reporting date. The Establishment has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Establishment considers reasonable and supportive information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Establishment's historical experience and informed credit assessment and including forward looking information.

The Establishment assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Establishment considers a financial asset to be in default when:

- The borrower is unlikely to pay its credit obligations to the Establishment in full, without recourse by the Establishment to actions such as realising security (if any is held); or
- The financial asset is more than 180 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Establishment is exposed to credit risk.

At each reporting date, the Establishment assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial assets have occurred.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the asset. For financial assets carried at FVTOCI, the loss allowance is recognised in OCI, instead of reducing the carrying amount of the asset.

### **Offsetting**

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

### **Equity**

Equity instruments issued by the Establishment are recorded at the value of proceeds received towards interest in share capital of the Establishment.

#### **r) Derivatives financial instruments**

##### *Derivatives that do not qualify for hedge accounting*

The Establishment enters into derivative financial instruments with counter parties that do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the statement of profit or loss.

#### **s) Fair value measurement**

The Establishment measures financial instruments, such as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income at each reporting date. The Establishment also discloses the fair value of financial instruments measured at amortised cost.

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their best economic interests.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Establishment uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

In addition, the fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurement are observable and significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

#### 4. **SIGNIFICANT JUDGMENTS EMPLOYED IN APPLYING ACCOUNTING POLICIES**

The significant judgments made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

##### **Investment property**

Freehold property is classified as investment property only if an insignificant portion of the useable space is used by the Establishment for its own activities.

Investment property is stated using the cost model.

##### **Classification of financial assets**

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Establishment's business model for managing them.

##### **Impairment**

At each reporting date, management conducts an assessment of property, plant and equipment and investment property to determine whether there are any indications that they may be impaired. In the absence of such indications, no further action is taken. If such indications do exist, an analysis of each asset is undertaken to determine its net recoverable amount and, if this is below its carrying amount, a provision is made.

The Establishment applies expected credit loss (ECL) model to measure loss allowance in case of financial assets on the basis of 12-month ECLs or Lifetime ECLs depending on credit risk characteristics and how changes in economic factors affect ECLs, which are determined on a probability-weighted basis.

##### **Recognition of revenue and allocation of transaction price**

###### *Identification of performance obligations*

The Establishment determined that the *sale of goods* is provided as a single component to customers and accordingly it becomes single performance obligation in respect of the goods being sold.

*Determine timing of satisfaction of performance obligation*

The Establishment concluded that the revenue from sales of goods is to be recognised at a point in time when the control of the goods has transferred to the customers.

5. **KEY SOURCES OF ESTIMATION UNCERTAINTY**

Key assumptions made concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are as follows:

**Carrying values of property, plant and equipment and investment property**

Residual values are assumed to be zero unless a reliable estimate of the current value can be obtained for similar assets of ages and conditions that are reasonably expected to exist at the end of the assets' estimated useful lives.

**Impairment**

Assessments of net recoverable amounts of property, plant and equipment, investment property are based on assumptions regarding future cash flows expected to be received from the related assets.

**Impairment of financial assets**

The loss allowance for financial assets are based on assumptions about the risk of default and expected loss rates. The management uses judgement in making these assumptions and selecting the inputs to the impairment calculations based on the past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in Note 3(q).

**Staff end-of-service benefits**

The Establishment computes the provision for the liability to staff end-of-service benefits stated at AED 175,825 (previous year AED 160,913), assuming that all employees were to leave as of the reporting date. The management is of the opinion that no significant difference would have arisen had the liability been calculated on an actuarial basis as salary inflation and discount rates are likely to have approximately equal and opposite effects.

	<b>337,409</b>	172,453

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Bank borrowings are subject to financial covenants as agreed with individual lending banks and are secured by way of:

- Personal guarantees of directors
- Corporate guarantee from the parent company
- Cash margin/deposits held under lien against facilities
- Assignment of receivables
- Assignment of all insurance policies
- Undated security cheques
- Letter of undertaking/ comfort from Adani Enterprises Limited

	2020 AED '000	2019 AED '000
<b>17. TRADE AND OTHER PAYABLES</b>		
Trade payables	1,629,567	1,680,655
Accruals	7,292	13,539
Interest accrued	1,908	1,222
Other payables	9	17
	<u>1,638,776</u>	<u>1,695,433</u>

The entire trade and other payables are due for settlement within one year from the reporting date.

<b>18. OTHER CURRENT LIABILITIES</b>		
Advance from customers	<u>37</u>	<u>128</u>
<b>19. OTHER FINANCIAL LIABILITIES</b>		
<b>Derivatives not designated as hedging instruments:</b>		
- Derivative financial instruments	<u>15,985</u>	<u>9,091</u>

- 20. DIVIDENDS**  
Dividends declared and approved by the directors AED 182,766 (previous year AED Nil) represent a dividend per share of AED 1,101 (previous year AED Nil).

- 20A. MANAGEMENT OF CAPITAL**  
The Establishment's objectives when managing capital are to ensure that the Establishment continues as a going concern and to provide the shareholder with a rate of return on their investment commensurate with the level of risk assumed.

Capital, which is unchanged from previous year, comprises equity funds as presented in the statement of financial position together with due to / due from related parties. Debt comprises total amounts owing to third parties, net of cash and cash equivalents.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

The Establishment is subject to externally imposed capital requirements as per the bank facilities availed. The Establishment has complied with all the capital requirements to which it is subject.

Funds generated from internal accruals together with funds received from related parties net of funds provided to related parties and dividends paid are retained in the business, to limit bank borrowings as per the terms and conditions agreed with the banks and according to the business requirements and to maintain capital at desired levels.

### 21. REVENUE FROM CONTRACTS WITH CUSTOMERS

The Establishment generates revenue from the transfer of goods at a point in time. The disaggregated revenue from contracts with customers by type of services and timing of revenue recognition is presented below. The management believes that this best depicts the nature, amount, timing and uncertainty of the Establishment's revenue and cash flows.

	2020 AED '000	2019 AED '000
<b>Major goods/service lines</b>		
<i>Trading</i>		
- Coal	6,224,270	7,108,687
- Scrap metal products and others	102,867	95,297

On trade receivables	1,892	105
On advance to suppliers	--	4,868
	<b>1,892</b>	<b>4,973</b>

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

### 29. FINANCIAL INSTRUMENTS

The net carrying amounts and fair values as at the reporting date of financial assets and financial liabilities are as follows:

	At fair value through profit or loss		At amortised cost	
	2019 AED 000's	2018 AED 000's	2019 AED 000's	2018 AED 000's
<b>Financial assets</b>				
Trade and other receivables	--	--	2,171,037	2,065,583
Due from related parties	--	--	1,854,307	1,964,296
Other financial assets	--	--	37,338	30,788
Cash and cash equivalents	--	--	146,888	78,830
	--	--	4,209,570	4,139,497
<b>Financial liabilities</b>				
Short term borrowings	--	--	337,409	172,453
Trade and other payables	--	--	1,638,776	1,695,433
Due to a related party	--	--	5,235	90,754
Other financial liabilities	15,985	9,091	--	--
	15,985	9,091	1,981,420	1,958,640

### Management of risks

The management conducts and operates the business in a prudent manner, taking into account the significant risks to which the business is or could be exposed.

The primary risks to which the business is exposed, which are unchanged from the previous year, comprise credit risk, liquidity risks and market risks (including currency risks, cash flow interest rate risks and fair value interest rate risks).

Credit risk is managed by assessing the creditworthiness of potential customers and the potential for exposure to the market in which they operate, combined with regular monitoring and follow-up.

Management continuously monitors its cash flows to determine its cash requirements and makes comparison with its funded and un-funded facilities with banks in order to manage exposure to liquidity risk.

The Establishment buys goods and services in foreign currencies. Exposure is minimised where possible by denominating such transactions in US Dollars to which the UAE Dirham is pegged.

Borrowing facilities are regularly reviewed to ensure that the Establishment obtains the best available pricing, terms and conditions on its borrowings.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Exposures to the aforementioned risks are detailed below:

### Credit risks

Financial assets that potentially expose the Establishment to concentrations of credit risk comprise principally cash and cash equivalents, bank deposits, trade and other receivables and due from related parties.

The Establishment's bank accounts and bank deposits are placed with high credit quality financial institutions.

The management assesses the credit risk arising from trade and other receivables and due from related parties taking into account their financial position, past experience and other factors. Based on the assessment individual risk limits are determined.

Due from related parties and trade and other receivables are stated net of the allowance for expected credit losses in aggregate at AED 4,005,269,688 (previous year AED 4,012,828,819). At the reporting date 96% of such receivables were due from six parties situated in India, Singapore, Taiwan, Hongkong and Australia (previous year 85% due from four parties situated in India, Singapore and Australia).

Significant concentration of credit risk of trade receivables by industry are as follows:

	2020 AED`000	2019 AED`000
Coal	2,141,187	2,034,335
Scrap metal and steel	12,058	14,588

The Establishment uses an allowance matrix to measure the expected credit losses of trade receivables, which comprise number of balances. Loss rates are calculated using a 'flow rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Flow rates are calculated separately for exposures in different segments based on the following common credit risk characteristics – geographic region, age of customer relationship and type of product purchased.

The following table provides information about the exposure to credit risk and expected credit losses for trade receivables from individual customers as at 31 March 2020.

	Loss rate		Gross carrying amount		Loss allowance	
	2020 %	2019 %	2020 AED`000	2019 AED`000	2020 AED`000	2019 AED`000
Not past due	0.00%	0.00%	2,150,932	2,048,225	--	--
Past due	98.65%	55.87%	2,313	698	2,282	390
			2,153,245	2,048,923	2,282	390

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Loss rates are based on actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Establishment's view of economic conditions over the expected lives of the receivables.

### Currency risk

There are no significant currency risks as substantially all financial assets and financial liabilities are denominated in UAE Dirhams or US Dollars to which the Dirhams is fixed.

### Interest rate risk

The Establishment's deposits with banks are subject to fixed interest rates at levels generally obtained in the UAE and are therefore exposed to fair value interest rate risk. Bank borrowings are subject to floating interest rates at levels which are fixed to LIBOR/ EIBOR and are therefore exposed to cash flow interest rate risk.

At the reporting date, if interest rates had been 1% higher or lower, interest expense on variable rate debt would have been AED 2,566,852 higher or lower (previous year AED 2,174,523) resulting in equity being lower or higher by such amount.

### Fair values

The management assesses the fair values of all its financial assets and financial liabilities at each reporting date.

The fair values of cash and cash equivalents, other financial assets, trade and other receivables, due from related parties, current borrowings, trade and other payables and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which fair value is observable:

	Level 1		Level 2		Level 3		Total	
	2020 AED`000	2019 AED`000	2020 AED`000	2019 AED`000	2020 AED`000	2019 AED`000	2020 AED`000	2019 AED`000
Derivative financial instruments (Cr)	(15,985)	(9,091)	--	--	--	--	(15,985)	(9,091)
							2020 AED `000	2019 AED `000
30. CONTINGENT LIABILITIES								
Letters of guarantee								112
Unutilised balances of commercial letters of credit								75,465

## ADANI GLOBAL FZE

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

---

31. **COMPARATIVE INFORMATION**

Previous year's figures have been regrouped/reclassified wherever necessary to make them comparable to those of the current liabilities period.

32. **SIGNIFICANT EVENTS**

Due to outbreak of Covid-19 globally, the Establishment's management has made initial assessment of likely adverse impact on business and financial risks on account of COVID-19, and believes that the impact is likely to be short term in nature. The Establishment has considered the possible effects of this pandemic on the carrying amounts of receivables and investments, and fall-off of financial and has concluded that there are no material adjustments required in these results. In this assessment, the Establishment has used internal assumptions and external information upto the date of approval of these financial results. The management does not see any medium to long term risks in the Establishment's ability to continue as a going concern and meeting its liabilities as and when they fall due, and ensure compliance with the debt covenants, as applicable. The Establishment will continue to monitor any material changes to future economic conditions arising out of global pandemic {refer Note 2 (c)}.
