# AP MINERAL RESOURCES PRIVATE LIMITED

(Formerly Known as Kurmitar Mining Private Limited)

Notes to Financial Statements for the year ended 31 March 2021

---

## 1 Corporate Information

AP Mineral Resources Private Limited (formerly known as Kurmitar Mining Private Limited) is a private limited company domiciled in India and was incorporated under the Companies Act, 2013. The registered office of the Company is located at Adani Corporate House, Shantigram, Near Vaishno Devi Circle, S.G. Highway, Khodiyar Ahmedabad, Gujarat. The company is incorporated to carry on business relating to and in mining of minerals and ores, beneficiation, handling, mining, storage, trading, transportation, washing and all other allied activities related to the improvement in the quality of minerals and/or ores.

## 2 Summary of Significant Accounting Policies

### a) Basis of preparation and presentation of financial statements

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time and generally accepted accounting principles in India.

These financial Statements have been prepared and presented under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values by Ind AS. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date.

The financial statements are presented in INR except when otherwise stated.

### Current & Non-Current Classification

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of activities and time between the activities performed and their subsequent realisation in cash or cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current / non-current classification of assets and liabilities.

### b) Use of Estimates

The preparation of financial statements in conformity with Ind AS requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and differences between the actual results and the estimates are recognised in the periods in which the results are known / materialized.

**Estimates and assumptions are required in particular for:**

#### i) Recognition of deferred tax assets:

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management assumes that taxable profits will be available while recognising deferred tax assets.

#### ii) Recognition and measurement of other provisions:

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

### c) Cash And Cash Equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

## AP MINERAL RESOURCES PRIVATE LIMITED

(Formerly Known as Kurmitar Mining Private Limited)

Notes to Financial Statements for the year ended 31 March 2021

---

### d) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

### e) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

For purposes of subsequent measurement, financial assets and liabilities are classified in various categories as under.

- > at amortised cost
- > fair value through other comprehensive income
- > fair value through profit and loss account

Financial instruments are subsequently measured and accounted based on their category. All financial instruments of the Company are covered under Amortised Cost. After initial measurement, such financial assets and liabilities are subsequently measured using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

### Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

### Impairment of Financial Assets

The Company applies simplified approach model for measurement and recognition of impairment loss on the financial assets and credit risk exposure.

Under the simplified approach the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit losses (ECL) at each reporting date, right from its initial recognition.

### Derecognition of Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

### f) Related Party Transactions

Disclosure of transactions with Related Parties, as required by Ind AS 24 "Related Party disclosures" has been set out in a separate note. Related Parties as defined under clause 9 of the Ind AS 24 have been identified on the basis of representation made by management and information available with the Company.

**g) Earnings Per Share**

The Basic EPS has been computed by dividing the income available to equity shareholders by the weighted average number of equity shares outstanding during the accounting year. The Diluted EPS has been computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the end of the year.

**h) Taxes on Income**

Tax expense comprises of current income tax and deferred tax.

**I) Current Taxation**

In the absence of any taxable income, provision for taxation has not been made in accordance with the income tax laws prevailing for the relevant assessment year.

**II) Deferred Taxation**

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent it is probable that these assets can be realised in future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are offset where a legally enforceable right exists to offset current tax assets and liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax includes MAT tax credit. The Company reviews such tax credit asset at each reporting date to assess its recoverability.

**i) Provisions, Contingent Liabilities and Contingent Assets**

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is possible that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are not recognised in the financial statements. The nature of such assets and an estimate of its financial effect are disclosed in notes to the Financial Statements.

# AP MINERAL RESOURCES PRIVATE LIMITED

(Formerly Known as Kurmitar Mining Private Limited)

Notes to Financial Statements for the year ended 31 March 2021

## 10 Financial Instruments And Risk Review

### a. Fair Value Measurement and Hierarchy

Since the Company does not have any financial asset or liability measured at fair value, disclosure of fair value hierarchy and disclosure of category-wise assets and liabilities is not relevant. All financial assets and liabilities of the Company have been valued at amortised cost and their values are not expected to be different than those presented in financial statements.

### b. Financial Risk Management Objective and Policies

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations / projects. The Company's principal financial assets include mainly cash and cash equivalents and other assets. In the ordinary course of business, the Company is mainly exposed to risks resulting from interest risk, credit risk and liquidity risk.

#### i) Interest risk

The Company is exposed to changes in interest rates due to its financing and cash management activities. The Company's risk management activities are subject to the management, direction and control of Central Treasury Team of the Adani Group under the framework of Risk Management Policy for interest rate risk.

#### ii) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a loss to the company. The company has adopted the policy of only dealing with creditworthy counter parties as a means of mitigating the risk of financial losses from default. The carrying amount of financial assets recorded in the financial statements represents the company's maximum exposure to credit risk. Cash are held with creditworthy financial institutions.

#### iii) Liquidity risk

The Company monitors its risk of shortage of funds using cash flow forecasting models. These models consider the maturity of its financial investments, committed funding and projected cash flows from operations. The Company's objective is to provide financial resources to meet its business objectives in a timely, cost effective and reliable manner and to manage its capital structure. A balance between continuity of funding and flexibility is maintained through the use of various types of borrowings.

The tables below provide details regarding contractual maturities of significant liabilities as at the end of each year end presented.

Notes to Financial Statements for the year ended 31 March 2021

**iv) Capital Management**

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value.

Management monitors the return on capital, as well as the levels of dividends to equity shareholders. The Company is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the year ended 31st March, 2020. Since the Company does not have any borrowings, it does not measure and monitor gearing ratio.
