## Independent Auditors' Report

**The Shareholders and The Board of Directors,  
PT. Coal Indonesia**

We have audited the accompanying consolidated financial statements of **PT. Coal Indonesia** and its subsidiaries ("The Company"), which comprise the statement of financial position as of 31 March 2016, and the statements of comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### **Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility**

Our responsibility is to express an opinion on such financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether such financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of **PT. Coal Indonesia** and its subsidiaries as of 31 March 2016 and its financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

*Emphasis of matter*

Without qualifying our opinion, we draw attention to the note 14 to the financial statements. The company has suffered recurring losses from operations and as of 31 March 2016 has a capital deficiency of Rp. 9.988.152.825. This conditions raise a substantial doubt about the Company's ability to continue as a going concern. However, the board of Directors is in the opinion that the "Going concern basis" in the preparation of this financial statements can still be applied as the mayor shareholders committed to provide financial support to meet the company's obligations as and when they fall due. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

*Other matter*

Our audits were conducted for the purpose of expressing an opinion on the basic consolidated financial statements taken as a whole. The accompanying supplementary information on pages 17 to 25 are presented for purposes of additional analysis only and is not a required part of the basic consolidated financial statements. Such supplementary information is the responsibility of the Company's management. Such information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements mentioned above and, in our opinion, is fairly presented in all material respects in relation to the basic consolidated financial statements taken as a whole.

The Board of Commissioners and Directors are as follows:

	2016	2015
<b>Board of Commissioners:</b>		
President Commissioner	: Mr. Biswabhusan Parida	: Mr. Harsh Vardhan Mishra
Commissioners	: Mr. Sarabjeet Singh	: Mr. Vinay Prakash
<b>Board of Directors:</b>		
President Director	: Mr. Badri Prasad Rath	: Mr. Jayaraman Udaykumar
Director	-	: Jani Juvenil Ashwinkumar
Marketing Director	: Mr. Dhruvajyotidas	

### 2. Summary of significant accounting policies

Set out below is a summary of the significant accounting policies adopted by the Company in the preparation of the consolidated financial statements.

#### a. Basis of financial statements preparation

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Indonesia, except otherwise stated.

The consolidated statements of cash flows are prepared based on the indirect method by classifying cash flows arising from operating, investing and financing activities.

The preparation of the financial statements requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reporting amounts of revenues and expenses during the reporting period. Actual result could differ from those estimates.

**PT. Coal Indonesia and Subsidiaries**  
**Notes to the Consolidated Financial Statements - continued**

The Financial Statements are prepared in Rupiah

**2. Summary of significant accounting policies - continued.**

**b. Principles of presentation of the consolidated financial statements**

The consolidated financial statements include the financial statements of the Company and Subsidiaries, which is owned more than 50%, either directly or indirectly, by the Company. Subsidiaries have been consolidated since the Company gained effective control over Subsidiaries and will not be consolidated when such control no longer exists.

All inter company transactions and balances have been eliminated.

Minority interest in the equity and results that are controlled by the parent company are shown as a separate item in the consolidated financial statements.

The percentage of ownership in the subsidiaries as at balance date are as follows :

Subsidiaries	Nature of Business	Percentage of ownership	
		2016	2015
PT. Setara Jasa	Mining services and other.	-	75%
PT. Sumber Dana Usaha	Coal trading, general contractor, etc.	-	75%

During the year, the Shareholders of the companies agreed to liquidate PT. Setara Jasa and PT. Sumber Dana Usaha commencing 29 March 2016.

**c. Foreign currency transactions and balances**

The company maintains its accounting records in Rupiah currency. Transactions in currencies other than Rupiah are recorded at the prevailing rate of exchange in effect on the date of the transactions.

At balance sheet date, all monetary assets and liabilities denominated in foreign currency have been translated at the prevailing exchange rate at that date.

The principal rate of exchange used as of 31 March were as follows:

	2016	2015
USD. 1	13.276	13.084

Exchange gains or losses arising from foreign currency translations are recognized in the current year statements of profit and loss.

**d. Financial Assets**

All financial assets are recognised and derecognised on trade date where the purchase or sale of a financial asset is under a contract which terms require delivery of the financial asset within the timeframe established by the market concerned. All financial assets are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

The Company's financial assets are classified as "Available-for-sale Financial Assets" and "Loans and Receivables".

## **PT. Coal Indonesia and Subsidiaries**

### **Notes to the Consolidated Financial Statements - continued**

The Financial Statements are prepared in Rupiah

---

#### **2. Summary of significant accounting policies - continued**

##### **d. Financial Assets**

###### **Available-for-sale financial assets (AFS)**

Listed equity shares held by the Company are classified as being AFS and are stated at fair value.

Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in equity. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in equity is reclassified to profit or loss.

In case where fair value of unlisted equity shares cannot be determined reliably, the asset is carried at cost less impairment.

Dividends on AFS equity instruments, if any, are recognised in statements of comprehensive income when the Company's right to receive the dividends is established.

###### **Loans and receivables**

Receivables from customers and other non-derivative receivables that have fixed or determinable payments that are not quoted in an active market are classified as "Loans and Receivables". Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term receivables when the recognition of interest would be immaterial.

###### **Impairment of financial assets**

Financial assets are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For listed and unlisted equity investments classified as AFS, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For loans and receivables, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payment; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

Loans and receivables that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

The amount of the impairment on loans and receivables is the difference between the assets' carrying amount and the present value of estimated future cash flows, discounted at the financial assets original effective interest rate.

## **PT. Coal Indonesia and Subsidiaries**

### **Notes to the Consolidated Financial Statements - continued**

The Financial Statements are prepared in Rupiah

---

#### **2. Summary of significant accounting policies - continued**

##### **d. Financial Assets - continued**

###### **Impairment of financial assets - continued**

For AFS financial asset, the carrying amount of the investment is directly reduced by the impairment loss. For loans and receivables, its carrying amount is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

For AFS equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised directly in other comprehensive income.

###### **Derecognition of financial assets**

The Company and its subsidiaries derecognise a financial asset only when the contractual rights to the cash flows from the asset expire, or when they transfer the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company and its subsidiaries neither transfer nor retain substantially all the risks and rewards of ownership and continue to control the transferred asset, the Company and its subsidiaries recognise their retained interest in the asset and an associated liability for amounts they may have to pay.

If the Company and its subsidiaries retain substantially all the risks and rewards of ownership of a transferred financial asset, the Company and its subsidiaries continue to recognise the financial asset and also recognise a collateralised borrowing for the proceeds received.

##### **e. Financial Liabilities and Equity Instruments**

###### **Classification as debt or equity**

Financial liabilities and equity instruments issued by the Company and its subsidiaries are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

###### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Company and its subsidiaries after deducting all of their liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

## **PT. Coal Indonesia and Subsidiaries**

### **Notes to the Consolidated Financial Statements - continued**

The Financial Statements are prepared in Rupiah

---

#### **2. Summary of significant accounting policies - continued**

##### **e. Financial Liabilities and Equity Instruments - continued**

###### **Financial liabilities**

Trade and other payables, bank and other borrowings are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method, with interest expense recognised on an effective yield basis.

Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowings.

###### **Derecognition of financial liabilities**

The Company derecognise financial liabilities when, and only when, the Company's obligations are discharged, cancelled or expire.

##### **f. Netting of Financial Assets and Financial Liabilities**

The Company only offset financial assets and liabilities and present the net amount in the statement of financial position where they :

- currently have a legal enforceable right to set off the recognized amount, and
- intend either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

##### **g. Cash and cash equivalent**

Cash and cash equivalents consist of cash on hand and at banks, short term deposits with maturity not more than three months at the time of placement and bank overdraft, which are not pledged as collateral nor restricted to be used.

##### **h. Related parties**

Related party transaction is a transfer of resources or obligations between related party, regardless of whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions.

##### **i. Fixed assets**

Fixed assets are stated at cost less their accumulated depreciation.

Depreciation is computed using the straight-line method at rates considered adequate to cover the estimated useful life of the assets, as follows:

Mining equipment and transportation	5 - 10 years
Plant and machinery	10 years
Computer	4 years
Office equipment and furniture	4 years
Miscellaneous site equipment	4 years

## **PT. Coal Indonesia and Subsidiaries**

### **Notes to the Consolidated Financial Statements - continued**

The Financial Statements are prepared in Rupiah

---

#### **2. Summary of significant accounting policies - continued**

##### **i. Fixed assets - continued**

The cost of repairs and maintenance are charged to expense as incurred, and the significant renewals and betterment costs are capitalised. When assets are retired or otherwise disposed of, their carrying values and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is credited or charged to the statement of profit and loss for the period.

##### **j. Investment in shares**

Long-term investment in shares of associated companies with less than 20 % ownership are stated at the lower of cost or net realisable value.

Long-term investment in shares of associated companies, where the Company holds an interest of 20 % to 50 % of the total issued and paid up share of the associated companies, and does not exercise management control, are recorded at the acquisition cost, adjusted every year with the Company's share of the net income or loss of the associated companies. Cash dividends are recorded as a deduction to the value of the investments.

##### **k. Revenue and expenses recognition**

In relation to the revenue from coal mining services and coal handling services, revenue is recognised when the services has been rendered and invoiced, and no significant uncertainties remain regarding the associated costs.

In relation to sale of coals, revenue is recognised when the significant risk and reward of ownership has been transferred to the buyer, and no significant uncertainties remain regarding the associated costs or the possible return of goods.

Expenses are recognised when incurred.

##### **l. Corporate income tax**

The income tax expense comprises current and deferred tax. Current tax expense is determined based on the taxable income for the year computed using the prevailing income tax rates.

Deferred income tax is recognised for the future tax consequences attributable to all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates that have been enacted or substantially enacted as at reporting date and is expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

##### **l. Corporate income tax - continued**

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Amendments to taxations obligations are recorded when an assessment is received or, if appealed against, when the result of the appeal are determined.

**PT. Coal Indonesia and Subsidiaries**  
**Notes to the Consolidated Financial Statements - continued**

The Financial Statements are prepared in Rupiah

---

**14. Going concern**

---

The financial statements have been prepared on the going concern basis. As of 31 March 2016, the company had net capital deficiency of Rp. 9.988.152.825 (2015, Rp. 8.953.012.663), and is therefore dependent upon continuing external financial support in order for it to meet its obligations as and when they fall due. However, the board of Directors is in the opinion that the "Going concern basis" in the preparation of this financial statements can still be applied as the share holders committed to provide financial support to meet the company's obligations as and when they fall due.
