INDEPENDENT AUDITOR'S REPORT

To,
The Members
Adani Agri Logistics (Dewas) Limited.

Report on the Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **Adani Agri Logistics (Dewas) Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Ind AS financial statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued there under.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable

assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit/loss total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, we report to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss including Other comprehensive income, the statement of cash flows and statement of changes in equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant rule issued thereunder;
 - e) On the basis of written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 in our opinion and to our best of our information and according to the explanations given to us :
- i. the Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements - Refer note 35 to the financial statements;;
 - ii. the Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order 2016 ("the Order") issued by the Central Government of India in terms of sub section (11) of section 143 of the Act, we give in the "Annexure – B", a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.

Annexure -A to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date)

Report on the Internal Financial Controls over financial reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Adani Agri Logistics (Dewas) Limited** ("the Company") as of 31st March, 2018 in conjunction with our audit of standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding

of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in

G. K. Choksi & Co.

ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date)

- (i)
 - a) The Company has maintained proper records showing full particulars, including quantitative details and situation of its fixed assets.
 - b) Fixed assets have been physically verified by the management at reasonable intervals which in our opinion is reasonable having regard to size of the Company and nature of its assets. No material discrepancies were noticed on such verification.
 - c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of the immovable property are held in the name of the Company
- (ii) As explained to us, the Management of the Company has conducted physical verification of inventory at reasonable intervals and no material discrepancies were noticed on physical verification during the year.
- (iii) According to information and explanation given to us the Company has not granted loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013
- (iv) In our opinion and according to information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 in respect of loans, investments, guarantees and security.
- (v) According to information and explanation given to us the Company has not accepted any deposits as defined in The Companies (Acceptance of Deposits) Rules 2014. Accordingly, the provision of Clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not prescribed maintenance of cost records under sub-section(1) of Section 148 of the Companies Act, 2013, for any of the services rendered by the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, sales tax, value added tax, employee state insurance, service tax, goods and service tax, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of employees' state insurance and

duty of excise and custom.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income tax, goods and service tax, sales tax, value added tax, duty of custom, employee state insurance, service tax, cess and other material statutory dues were in arrears as at 31st March, 2018 for a period of more than six months from the date they became payable.

- (b) According to information and explanations given to us, the Company has no disputed outstanding statutory dues as at 31st March, 2018 other than those stated below:

Name of the Statute	Nature of Dues	Amount (Rs in hundreds)	Amount paid under protest (Rs in hundreds)	Period of Dues	Forum at which dispute is pending
The Madhya Pradesh VAT Act, 2002	Entry Tax	22,695.23	6,354.66	25.07.2014 to 31.03.2015	Appellate Authority, Commercial Tax, Bhopal

(viii) In our opinion and according to information and explanations given to us, the Company has not defaulted in the repayment of loans and borrowings to financial institutions, banks, government or dues to debenture holders during the year.

(ix) In our opinion and according to information and explanations given to us the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable.

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) In our opinion and according to the information and explanations give to us and based on our examination of the records of the Company, the Company has not paid provided any managerial remuneration. Accordingly reporting under clause 3(xi) of the Order is not applicable to the company.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi company. Accordingly reporting under clause 3(xii) of the Order is not applicable.

- (xiii) In our opinion and according to the information and explanations given to us, the Company is in compliance with sections 177 and 188 of the Act where applicable for all transactions with related parties and details of such transactions have been disclosed in the standalone Ind AS financial statements as required by the applicable accounting standards.
- (xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and therefore, the reporting under clause(xiv) of the Order is not applicable to the company
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into non-cash transactions with directors or persons connected with him. And hence provisions of section 192 of the Companies Act, 2013 are not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934

1 Corporate information

Adani Agri Logistics (Dewas) Limited ('the Company') is a wholly owned subsidiary of Adani Agri Logistics Limited (w.e.f. 30th March, 2017) (earlier wholly owned subsidiary of Adani Enterprises Limited up to 29th March 2017) and incorporated under the provisions of the Companies Act, 2013 on 29th May, 2014. The registered office of the company is situated at Adani House, 56, Shrimali Society Navrangpura, Ahmedabad, Gujarat, 380009. The company is engaged in the business of storage of food grains at Dewas in the state of Madhya Pradesh.

2 Features of service concession agreement entered into with MPWLC

The company has entered into service concession agreement ("SCA") with Madhya Pradesh Warehousing and Logistic Corporation (MPWLC), a public sector undertaking under the control of Government of Madhya Pradesh to construct and operate an integrated storage facility on Design, Built, Finance, Operate and Transfer (DBFOT) basis for storage of food grains comprising 4 silos with a designed storage capacity of 50,000 MT for a period of 30 (thirty) years.

Scope of service:

Under the service concession agreement, the company is required to (a) construct storage facility (b) operate and maintain storage facility (c) storage and preservation of food grains and fulfilment of all other obligations in accordance with terms of SCA.

The company is required to maintain the availability of at least 98% of storage capacity during any accounting year of concession period. ("Normative Availability")

Storage and other charges income

As per the terms of SCA, the company is entitled to base fixed charges as per the rates mentioned in SCA of normative availability. The company is also entitled to variable charges such as loading and unloading charges, bagging charges, stacking charges etc. as per the rates mentioned in SCA. The base fixed charges are reduced by 1% every year after year of commercial operation. Further the base fixed charges and variable charges are revised to reflect 75% of variation in wholesale price Index (WPI) occurring in between Reference Index Date for march of the year (31/03/2013) and reference index date for the month of March preceding the accounting year for which such revision is undertaken.

The company is required to maintain the availability of at least 98% of storage capacity during any accounting year of concession period. In case the availability is less than 98% of storage capacity, the fixed charges payable for the relevant period shall be proportionally reduced and in addition damages equal to 0.5 times of proportionate reduction of fixed charges during non-harvest season and 2 times of proportionate reduction during harvest season shall be payable.

Reservation of capacity:

As per the terms of the SCA, MPWLC has, at any time after 10th year from commercial operation date, right to release and dereserve one or more of the silos comprising storage capacity and thus the obligations of MPWLC to pay fixed storage charges and the obligation of company to provide storage capacity shall cease. The company has a right to let out the dereserved capacity to any third parties subject to sharing of 10% of revenue received from such let out.

3 Basis of preparation

The financial statements of the company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

The financial statements have been prepared on the historical cost basis, except for certain financial instruments (including derivative instruments) which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

The financial statements are presented in Indian rupees (INR) and all values are rounded to the nearest hundreds, except numbers.

4 Use of estimates

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgements and the use of assumptions in these financial statements have been disclosed in note 4.1. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to financial statements.

4.1 The significant estimates and judgements are listed below:

- (i) Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.
- (ii) The impairment provision for financial assets are based on the assumptions about risk of default and expected loss rates. The company uses judgements in making the assumptions and selecting the inputs to the impairment calculations, based on the company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.
- (iii) Judgements by actuaries in respect of discount rates, future salary increments, mortality rates and inflation rate used for computation of defined benefit liability.
- (iv) Significant judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.
- (v) Significant judgement is required to classify the balance with government authorities including tax assets into current and non-current assets.
- (vi) Significant judgement is required in assessing at each reporting date whether there is indication that an asset may be impaired.
- (vii) Significant judgement has been exercised by management for measuring fair value of financial assets under SCA considering the fact that MPWLC has right to dereserve the capacity at the end of 10th year from COD. Further this also requires judgement on the part of management to anticipate incremental borrowing rate of SCA to discount future cash flows of fixed storage charges to arrive at fair value of financial asset under SCA.

5 Summary of significant accounting policies**(a) Current and non-current classification**

The company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- expected to be realised or intended to be sold or consumed in normal operating cycle
- held primarily for the purpose of trading
- expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- it is expected to be settled in normal operating cycle
- it is held primarily for the purpose of trading
- it is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

(b) Service concession agreement**Recognition and measurement:**

The company has entered into service concession agreement with Madhya Pradesh Warehousing and Logistic Corporation (MPWLC) which is an arrangement between the "grantor" (a public sector entity/authority) and the "operator" (a private sector entity) to provide services that give the public access to major economic and social facilities utilizing private-sector funds and expertise.

With respect to SCA, revenue and costs are allocated between those relating to construction services and those relating to operation and maintenance services, and are accounted for separately. Consideration received or receivable is allocated by reference to the relative fair value of services delivered when the amounts are separately identifiable. The infrastructure used in a concession are classified as an intangible asset or a financial asset, depending on the nature of the payment entitlements established in the SCA.

When the amount of consideration under the arrangement for the provision of public services is substantially fixed by a contract, the company recognizes the consideration for construction services at its fair value as a financial asset and is classified as "financial asset under service concession arrangements"

When the demand risk is with company, then, to the extent that the company has a right to charge the user of infrastructure facility, the company recognizes the consideration for construction services at its fair value, as an intangible asset. The company accounts for such intangible asset in accordance with the provisions of Ind AS 38.

When the amount of consideration under the arrangement comprises -

- fixed charges based on Annual Guaranteed Tonnage and
- variable charges based on Actual Utilization Tonnage

then, the company recognizes the consideration for construction services at its fair value, as the "financial asset under service concession arrangement" to the extent present value of fixed payment to be received discounted at incremental borrowing rate and the residual portion is recognized as an intangible asset.

Revenue recognition

Once the infrastructure is in operation, the treatment of income is as follows:

Finance income over financial asset after consideration of fixed storage charges is recognized using effective interest method. Variable storage charges revenue is recognized in the period of storage of food grains. Revenues from other variable charges such as loading and unloading charges, bagging charges, stacking charges, etc. as per the rates mentioned in SCA are recognized in each period as and when services are rendered in accordance with "Ind AS 18 Revenue".

Amortization of intangible asset under SCAs

The intangible rights relating to infrastructure assets, are amortized equally during the period of service concession arrangement (30 Years).

(c) Fair value measurement

The company measures financial instruments, such as, derivatives and certain investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- > In the principal market for the asset or liability, or
- > In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participants that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- > Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- > Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- > Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

External valuers are involved for valuation of unquoted financial assets and financial liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the management. Selection criteria includes market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the company analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the company's accounting policies. For this analysis, the company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The company, in conjunction with the company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on a yearly basis.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(d) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. It is broadly classified in Financial Assets, Financial Liabilities, Derivatives & Equity.

Financial asset:

Trade receivable, loans & advances given, security deposits given, investment in debt securities & other contractual receivables are covered under Financial Assets.

Initial recognition:

Above financial assets are initially recognised at 'Fair Value' (i.e. Fair Value of consideration to be received).

Subsequent measurement:

Above financial assets are subsequently measured at 'amortised cost' using Effective Interest Rate (EIR) method because these assets are held with a business model whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Derecognition

A financial asset is derecognized only when

- The company has transferred the rights to receive cash flows from the financial asset or
- The company retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the company has transferred substantially all risks and reward of ownership the financial asset, the financial asset is derecognized. Where the company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Impairment of financial asset

The company assesses impairment based on expected credit losses(ECL) model to the following:

- Financial assets measured at amortised cost;
- Financial assets measured at fair value through other comprehensive income (FVTOCI);

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For recognition of impairment loss on financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12-months ECL.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enabled significant increases in credit risk to be identified on a timely basis.

Financial liability

Trade payable, long term & short term borrowings, loans / advances taken, security deposits taken & any other contractual liability are covered under financial liability.

Initial recognition:

Above financial liabilities are initially recognised at 'fair value' (i.e. fair value of consideration to be paid).

Subsequent measurement:

Above financial liabilities are subsequently measured at 'amortised cost' using effective interest rate (EIR) method at each reporting date. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition of debt instrument and fees or incidental charges that are an integral part of borrowing transaction. The EIR amortisation is included as 'finance costs' in the statement of profit and loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

(e) Inventories

Inventories of stores and spares, chemicals, packing materials and fuels are valued at cost. Cost is determined based on moving weighted average method.

(f) Borrowing costs

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

In case of concession arrangement, out of total borrowing cost attributable to construction of the infrastructure, borrowing cost attributable to financial asset (i.e. proportion of total value of financial asset to total fair value of construction services) are charged to statement of profit and loss in the period in which such costs are incurred and borrowing cost attributable to intangible asset (i.e. proportion of total value of intangible asset to total fair value of construction services) are capitalized in intangible asset in the period in which such costs are incurred.

(g) Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

(h) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the company and additional criteria are met as follows:

Revenue from rendering of service : Revenue from rendering of service is recognised as per the terms of contract with customers based on the stage of completion when the outcome of the transactions involving rendering of service can be estimated reliably. Percentage completion method requires the company to estimate the service performed to date as a proportion of the total services to be performed.

Service concession arrangements (Ind AS 11) Revenues relating to construction contracts which are entered into with government authorities for the construction of the infrastructure necessary for the provision of services are measured at the fair value of the consideration received or receivable. Revenue from service concession arrangements is recognised based on the fair value of construction work performed at the reporting date

Revenue from construction contracts is recognized on a percentage completion method, in proportion that the contract costs incurred for work performed up to the reporting date stand to the estimated total contract costs indicating the stage of completion of the project.

Interest : For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where applicable, to the net carrying amount of the financial asset. Interest income is included under the head 'Other income' in the statement of profit and loss.

Interest on delayed payment charges have been accounted as revenue when it is probable that the economic benefits associated with the transaction will flow to the entity and the amount of the revenue can be measured reliably.

(i) Employee benefits

All employee benefits payable within 12 months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short term compensated absences, performance incentives, etc. and the expected cost of bonus, ex-gratia are recognised during the period in which the employee renders related service.

Provident fund

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

Gratuity fund

The company operates a defined benefit gratuity plan. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method with actuarial valuation being carried out at each balance sheet date, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods. Past service cost is recognised in the statement of profit and loss in the period of plan amendment.

Interest is calculated by applying the discount rate to the net defined benefit liability.

The company recognises the following changes in the net defined benefit obligation under employee benefit expense in the statement of profit and loss:

> Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and

> Net interest expense or income

Compensated absences

Provision for compensated absence is determined using the projected unit credit method with actuarial valuation being carried out at each balance sheet date. Accumulated compensated absences, which are expected to be availed or encased beyond 12 months from the end of the year are treated as long term employee benefit.

Accumulated compensated absences, which are expected to be availed or encased within 12 months from the end of the year are treated as short term employee benefit. Short term compensated absences are recognized on an undiscounted basis for services rendered by the employees during an accounting period. Accumulated sick leaves are treated as short-term employee benefit, as the company does not have an unconditional right to defer its settlement for 12 months after the reporting date, and the company presents short-term leaves as a current liability in the balance sheet.

Termination benefits, if any, are recognised as an expense as and when incurred.

(j) Segment reporting

The Chief Operational Decision Maker monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

In accordance with the Ind-As 108 - "Operating Segments", the company has determined its business segment as storage services. Since there are no other business segments in which the company operates, there are no reportable segments. Therefore, the segment revenue, results, segment assets, segment liabilities, total cost incurred to acquire segment assets, depreciation charge are all as is reflected in the financial statement.

(k) Taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the tax are those that are enacted or substantially enacted, at the reporting date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Current and deferred income tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss (either in other comprehensive income or in equity). Current and deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(l) Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

(m) Cash and cash equivalent

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand, demand deposit and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

(n) Provision, contingent liabilities and contingent assets**General**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the company expects some or all of the provisions to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities

Contingent liabilities is disclosed in the case of :

> A present obligation arising from past events, when it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

> A present obligation arising from past events, when no reliable estimate can be made.

> A possible obligation arising from past events, unless the probability of outflow of resources is remote.

Commitments includes the amount of purchase order (net of advances) issued to parties for completion of assets.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(o) Impairment of non-financial assets

As at each balance sheet date, the company assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, if any, the company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined :

- > In the case of an individual asset, at the higher of the fair value less cost to sell and the value in use; and
- > In the case of cash generating unit(a group of assets that generates identified, independent cash flows), at the higher of the cash generating units' fair value less cost to sell and the value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Notes to financial statements for the year ended on 31st March, 2018

32 Financial risk objective and policies

The company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the company's operations/projects. The Company's principal financial assets include loans, trade and other receivables, SCA receivables, cash and cash equivalents that derive directly from its operations.

In the ordinary course of business, the company is mainly exposed to risks resulting from interest rate movements (interest rate risk) and other price risks such as business risk.

a Interest rate risk

The company is exposed to changes in market interest rates due to financing, investing and cash management activities. The company's exposure to the risk of changes in market interest rates relates primarily to the company's long-term debt obligations with floating interest rates. The company manages its interest rate risk by regularly reviewing the debt market.

b Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables and other financial assets) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Credit risk from balances with banks and financial institutions is managed by the company's treasury department in accordance with the company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the company's board of directors on an annual basis, and may be updated throughout the year subject to approval of the group's finance committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The company is dealing with only one customer i.e. MPWLC, a public sector undertaking under the control of Government of Madhya Pradesh. Since, the creditworthiness of Government backed organization is good, the management of the company believes that the credit risk is negligible.

For recognition of impairment loss on financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

Based on internal evaluation, the credit risk of all financial assets has not increased significantly after initial recognition. Therefore, allowance is measured using 12 months expected credit loss (ECL) and full life time expected credit loss model is not used to measure the allowance for any financial asset.

Financial assets for which loss allowance is measured using 12 months expected credit loss (ECL) is as follows:

₹ in Hundreds

Particulars	31.03.2018	31.03.2017
Trade receivables	28,253.68	85,693.72
Cash and cash equivalents	69,305.99	19,310.64
Other balances with bank	241,000.00	-
Loans to related parties	-	72,116.54
SCA receivables - non-current	1,244,438.73	1,414,812.17
SCA receivables - current	296,571.13	299,566.80
Other non-current financial assets	4,168.00	4,139.00
Other current financial assets	10,145.14	2,269.52
	1,893,882.67	1,897,908.39

The company has not recognised any loss allowance under 12 months expected credit loss (ECL) model.

c Liquidity risk

Liquidity risk is defined as the risk that the company will not be able to settle or meet its obligations on time or at a reasonable price. The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecasts on the basis of expected cash flows.

Maturity profile of financial liabilities:

d Capital management

For the purposes of the company's capital management, capital includes issued capital and all other equity reserves. The primary objective of the company's capital Management is to maximize shareholder value. The company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The company monitors capital using gearing ratio, which is net debt (total debt less cash and cash equivalents) divided by total capital plus net debt.

₹ in Hundreds

Particulars	31.03.2018	31.03.2017
Net debt (total debt less cash and cash equivalents and Other balances with bank)	1,910,441.78	2,177,293.18

Add: Acquisition adjustment	-	-
Add: Expected return on plan assets	-	-
Add: Contribution	-	-
Less: Benefits paid	-	-
Add: Actuarial gain / (loss) on plan assets	-	-
Fair value of assets at the end of the year	-	-

The principal assumptions used in determining gratuity obligations are shown below:

Financial assumptions

₹ in Hundreds

Particulars	31.03.2018	31.03.2017
Discount rate	7.80%	7.60%
Rate of increase in compensation	8.00%	7.50%

Demographic assumptions

Particulars	31.03.2018	31.03.2017
Mortality rate (% of IALM 06-08)	100.00%	100.00%
Withdrawal rate (per annum)	3.00%	2.00%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Sensitivity analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting year, while holding all other assumptions constant. The results of sensitivity analysis is given below:

₹ in Hundreds

Particulars	31.03.2018	31.03.2017
Defined benefit obligation (base)	600.28	219.82

₹ in Hundreds

Particulars	31.03.2018		31.03.2017	
	Decrease	Increase	Decrease	Increase
Discount rate (- / + 1%)	728.78	499.58	274.21	178.07
Salary growth rate (- / + 1%)	498.92	727.19	177.69	273.69
Attrition rate (- / + 50% of attrition rates)	619.08	583.17	223.68	215.89
Mortality rate (- / + 10% of mortality rates)	600.35	600.21	219.81	219.84

Maturity profile of defined benefit obligation

Weighted average duration (based on discounted cashflows)

20 years

₹ in Hundreds

Expected cash flows over the next (valued on undiscounted basis):	Amount in Rupees
1 year	0.69
2 to 5 years	81.19
6 to 10 years	140.79
More than 10 years	3,324.75

- Weighted average number of equity shares (D)	1,000,000	1,000,000
Earning per share (basic and diluted) (A/D)	(4.70)	(10.90)

38 Standards Issued but not yet Effective:

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the company's financial statements are disclosed below. The company intends to adopt these standards, if applicable, when they become effective. The Ministry of Corporate Affairs ("MCA") has issued certain amendments to Ind AS through (Indian Accounting Standards) Amendment rules, 2018. These amendments maintain convergence with IFRS by incorporating amendments issued by International Accounting Standards Board (IASB) into Ind AS and has amended the following standards:

1. Ind AS 115-revenue from contract with customers
2. Ind AS 21-The effect of changes in foreign exchanges rates
3. Ind AS 40-Investment property
4. Ind AS 12-Income taxes
5. Ind AS 28-Investment in associates and joint ventures
6. Ind AS 112-Disclosure of interest in other entities

These amendments are effective for annual periods beginning on or after April 01, 2018. Application of these amendments will not have any recognition and measurement impact. However, it will require additional disclosure in the financial statements.

These amendments does not have material impact on company's financial statements. The company will adopt these amendments, if applicable, from their applicability date.
