Adani Infrastructure Pty Ltd

Directors' report

Year ended 31 March 2018

Your directors submit their report for the year ended 31 March 2018

DIRECTORS

The following persons were directors of Adani Infrastructure Pty Ltd (the "Company") during the whole financial year and up to the date of this report:

Samir Vora
Jeyakumar Janakaraj

COMPANY SECRETARY

The Company Secretary of Adani Infrastructure Pty Ltd during the financial year and up to the date of this report:

Rajesh Gupta

CORPORATE INFORMATION

Adani Infrastructure Pty Ltd is a Company limited by shares that is incorporated and domiciled in Australia.

The registered office of Adani Infrastructure Pty Ltd is located at:
Level 25, 10 Eagle Street
Brisbane, Queensland, Australia.

EMPLOYEES

As at 31 March 2018, the Company had no employees (2017: no employees).

PRINCIPAL ACTIVITIES

The principal activity of the Company during the year 31 March 2018 was undertaking the pre-construction activities for renewable energy project development, and water infrastructure work for the mining project.

REVIEW OF OPERATIONS

The loss after tax for the Company for the year ended 31 March 2018 was \$384,361 (2017: \$956,803).

The Company carried out feasibility study and pre-construction activities of various renewable energy projects in Australia.

DIVIDENDS

No dividend has been paid nor recommended.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than the matters detailed as part of our review of the Company's operation for the year ended 31 March 2018, there were no significant changes in the state of affairs of the Company during the current financial year.

Adani Infrastructure Pty Ltd

Directors' report (continued)

Year ended 31 March 2018

SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

There have been no other matters or circumstances that have arisen since the end of the financial year that have significantly affected, or may significantly affect the Company's operations, the results of those operations or the Company's state of affairs in financial years after the financial year ended 31 March 2018.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

Likely developments in the Company's operations and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Company.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Company's operations are subject to State and Federal Environmental Legislative requirements. There were no significant breaches or non-compliance with these requirements during the financial year ended 31 March 2018 and up to the date of this report.

INDEMNIFICATION AND INSURANCE OF DIRECTORS

During the financial year, a related party paid premiums in respect of Directors' and Officers' Liability Insurance contract. The insurance contract insure against certain liabilities (subject to exclusions) for persons who are or have been directors or officers of the Company. A condition of the contract is that the nature of the liabilities indemnified and the premium payable shall not be disclosed.

INDEMNIFICATION OF AUDITORS

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young during or since the financial year.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under *section 307C of the Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of directors.

On behalf of the Board

Samir Vora
Director

Brisbane, 9 May 2018

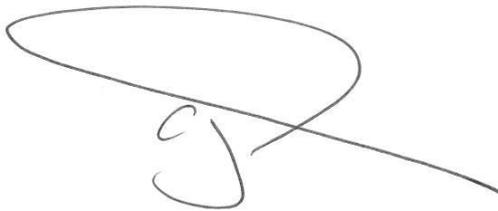

Auditor's Independence Declaration to the Directors of Adani Infrastructure Pty Ltd

As lead auditor for the audit of Adani Infrastructure Pty Ltd for the financial year ended 31 March 2018, I declare to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

Ernst & Young

Andrew Carrick
Partner

Adani Infrastructure Pty Ltd

Notes to the financial statements

For the year ended 31 March 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

The general purpose financial report of Adani Infrastructure Pty Ltd (the "Company") for the year ended 31 March 2018 was authorised for issue in accordance with a resolution of the directors on 9 May 2018.

(a) Basis of accounting

(i) *Statement of compliance*

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards - Reduced Disclosure Requirements and other authoritative pronouncements of the Australian Accounting Standards Board. The Company is a for-profit, private sector entity which is not publicly accountable. Therefore, the financial statements for the Company are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements (AASB - RDR).

The Company has adopted AASB 1053 *Application of Tiers of Australian Accounting Standards* for the financial year beginning on 1 April 2017. The Company prepared its most recent previous financial statements in the form of special purpose financial statements applying all the recognition and measurement requirements of applicable Australian Accounting Standards. Accordingly, there is no effect on the Company's financial position, financial performance or cash flows from adopting AASB 1053.

The Company is limited by shares for the purpose of preparing the financial statements. The financial report has also been prepared on a historical cost basis and is presented in Australian dollars.

(ii) *Going concern*

During the year ended 31 March 2018, the Company made a loss of \$348,361, and as at 31 March 2018, the Company had current liabilities exceed current assets by \$14,115,225 (2017: \$4,919,412). This is chiefly due to the classification as current liability of the Company's related party borrowings (refer to note 8).

The ability of the Company to continue as a going concern is dependent upon the ongoing support of its shareholders. The ultimate parent company, Adani Enterprises Limited has agreed to not call on Group to repay any loans or other amounts owing to it or entities under its control, if after payment of the loans or the other amounts, the Company would not be able to meet their debts as and when they fall due for a period not less than twelve months from date from these financial statements. Additionally, Adani Enterprises Limited, in its own capacity or through entities under its control has agreed to provide the financial support to the Company for a period at least until not less than twelve months from the date of these financial statements. Based on the letter of support received, the Directors of the Company are satisfied funds will be available to meet the planned activities and contractually committed for at least 12 months from the date of the authorisation of these financial statements.

(iii) *New and amended standards and interpretations*

The Company applied for the first time certain amendments to the standards, which are effective for annual periods beginning on or after 1 April 2017. The Company has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

The nature and the impact of each new standard or amendment is described below:

- ▶ AASB 2016 - 1 Amendments to Australian Accounting Standards - Recognition of Deferred Tax Assets for Unrealised Losses

Adani Infrastructure Pty Ltd

Notes to the financial statements

For the year ended 31 March 2018

(a) Basis of accounting (continued)

(iii) *New and amended standards and interpretations (continued)*

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of deductible temporary difference related to unrealised losses. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

The Company applied amendments retrospectively. However, their application has no effect on the Company's financial position and performance as the Company has no deductible temporary differences or assets that are in the scope of the amendments.

- ▶ AASB 2016 - 2 Amendments to Australian Accounting Standards - Disclosure Initiative: Amendments to AASB 107

(b) Foreign currency translation

The Company's functional currency is the Australian dollar, being the currency of the primary economic environment in which they operate. The general purpose financial report is presented in Australian dollars.

Foreign currency transactions are recorded at the applicable exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are translated at the appropriate exchange rates ruling at that date. Exchange differences are dealt with in the profit or loss.

(c) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific revenue recognition criteria must also be met before revenue is recognised:

Interest

Revenue is recognised as the interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

(d) Income taxes

Current tax

Current tax is calculated by preference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is provided for all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amount for financial purposes.

Adani Infrastructure Pty Ltd

Notes to the financial statements (continued)

For the year ended 31 March 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Income taxes (continued)

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the statement of comprehensive income, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

(e) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(f) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash at bank and on hand includes deposits at call which are readily convertible to cash on hand, which are as defined above, net of outstanding bank overdrafts.

(g) Trade and other receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment.

Collectability of receivables is reviewed on an on-going basis.

(h) Financial instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Adani Infrastructure Pty Ltd

Notes to the financial statements (continued)

For the year ended 31 March 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Financial instruments (continued)

(i) *Financial assets - initial recognition and measurement*

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss (FVTPL), loans and receivables, held-to-maturity investments, available-for-sale (AFS) financial assets, or derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

(ii) *Financial assets - subsequent measurement*

The Company currently only has cash and short term deposits and loans and receivables as financial assets.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the consolidated statement of comprehensive income under finance costs for loans and in other operating expenses for receivables.

(iii) *Derecognition of financial assets*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- ▶ The rights to receive cash flows from the asset have expired; or
- ▶ The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(iv) *Impairment of financial assets*

The Company assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event') has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include: indications that the debtor, or a group of debtors, is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and observable data indicating that there is measureable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

(v) *Financial liabilities - initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as loans and borrowings, or trade and other payables as appropriate.

All financial liabilities are recognised initially at net of directly attributable transactions costs.

The Company's financial liabilities include trade and other payables and non-interest bearing loans.

(vi) *Financial liabilities - subsequent measurement*

The subsequent measurement of financial liabilities depends on their classification, as described below.

Adani Infrastructure Pty Ltd

Notes to the financial statements (continued)

For the year ended 31 March 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Financial instruments (continued)

Loans and borrowings and trade and other payables

This category is the most relevant to the Company. After initial recognition, interest bearing loans and borrowings and trade and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are integral part of the EIR. The EIR amortisation is included as finance costs in the statement of comprehensive income.

(vii) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

(viii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(i) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the income statement as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss when the asset is derecognised. The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

The Company is currently in the development phase and has no depreciating asset during the period.

Adani Infrastructure Pty Ltd

Notes to the financial statements (continued)

For the year ended 31 March 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset.

(k) Trade and other payables

Trade and other payables are carried at amortised cost due to their short term nature they are not discounted. They represent liabilities for goods and services provided to the Company prior to the reporting date that are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

(l) Non-interest-bearing loans

The Company's loan with related parties is carried at amortised cost using the effective interest rate method. The loan is for a period of five years but on issuing notice to the Company, the lender can require the company to repay the loan on demand.

The measurement of an interest free loan at amortised cost using the effective interest rate method generally results in the carrying value of the loan being lower than its principal amount. Given this loan can be required to be repaid, at any time, at the unilateral demand of the lender, the loan has been classified as a current liability. Due to the ability of the loan to be called at unilateral demand of the lender, the liability has not been discounted.

(m) Contributed equity

Ordinary shares and additional capital contributions are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Adani Infrastructure Pty Ltd

Notes to the financial statements (continued)

For the year ended 31 March 2018

2 SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which actual results could differ from those estimates.

Impairment:

Impairment exists when the carrying value of an asset or CGU exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. Based on the value in use approach no impairment has been recognised. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next thirty five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows.

Deferred tax asset

Deferred tax asset are recognised for all temporary differences (including unused tax losses) to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Brisbane, 9 May 2018

Independent Auditor's Report to the Members of Adani Infrastructure Pty Ltd

Opinion

We have audited the financial report of Adani Infrastructure Pty Ltd (the Company), which comprises the balance sheet as at 31 March 2018, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Company's financial position as at 31 March 2018 and of its financial performance for the year ended on that date; and
- b) complying with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Basis of Accounting and Restriction on Use

We draw attention to Note 1 to the financial statements, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the directors' financial reporting responsibilities under the *Corporations Act 2001* and to meet *Section 3CA* of the *Taxation Administration Act 1953*. Our report is intended solely for Adani Infrastructure Pty Ltd and its members and should not be used by parties other than Adani Infrastructure Pty Ltd and its members. Our opinion is not modified in respect of this matter.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information is the directors' report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

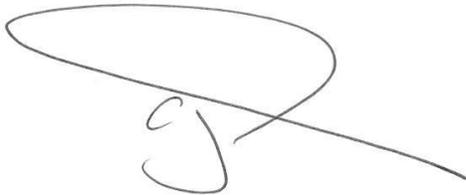

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
